

Selina Syed

Riverside, CA 92508 | (949) 742-1822 | syed.selina25@gmail.com

EDUCATION

University of California, Riverside

Bachelor of Science in Robotics, Minor in Data Science - GPA: 3.60

Expected June 2028

SKILLS

Technical Skills: Python, C++, Microsoft Excel, SolidWorks, Soldering, Workshop Machinery (drill press, bandsaw, lathe)

Operating Systems: Windows, MacOS, Linux

Languages: Spanish (Read, Write, Speak at a working proficiency), Telugu (Native), Hindi (Native), & English (Native)

Interpersonal Skills: Project Coordination, Technical Communication, Collaboration, Adaptability, Mentorship

TECHNICAL EXPERIENCE

Binary Search Tree (BST) Visualization (C++ Programming) | Riverside, CA | [GitHub Link](#)

Aug 2025

- Developed a program to build a Binary Search Tree (BST) from user input and calculate node height and depth.
- Implemented object-oriented programming principles to manage tree structures and recursive algorithms.
- Integrated Graphviz to generate a visual representation of the BST, enhancing debugging and presentation.
- Debugged and refined the program to ensure accurate calculations and clean visualization output.

Inclusive Merry-Go-Round Design (SolidWorks) | Riverside, CA

Nov 2024

- Designed an inclusive merry-go-round playground ride in SolidWorks, adhering to ADA standards and the Seven Principles of Universal Design.
- Created 3D models, including isometric, top, front, and exploded assembly views to demonstrate structural integrity.
- Applied a decision matrix to evaluate multiple conceptual designs and selected the optimal design based on safety.
- Ensured accommodation for mobility devices and multiple users, with features that allowed manual or assisted operation.

FIRST Robotics Competition | Irvine, CA

Aug 2020 - June 2024

- Designed, built, and tested a competition-ready robot as part of the mechanical engineering team.
- Applied hands-on problem-solving to troubleshoot complex engineering challenges in real-time competitions.
- Collaborated across electrical, software, and design sub-teams to integrate systems.

WORK EXPERIENCE

Freelance Tutor | Irvine, CA

Oct 2020 - July 2024

- Tutored students in Algebra, Statistics, English, Chemistry, and Biology.
- Partnered with SiNET Tutoring as Outreach Leader to manage online tutoring for K–8 students.
- Oversaw 500+ tutoring sessions and mentored new tutors.

Digital Marketing Intern @ Ingram Micro | Irvine, CA

June 2023 - July 2023

- Assisted in Excel and Outlook tasks to support digital marketing campaigns.
- Shadowed mentors and completed assignments to gain exposure to corporate workflows.

Engineering Intern @ Oraise | Irvine, CA

June 2022 - July 2022

- Supported project launches by collecting, organizing, and inputting data into internal systems.
- Contributed to workflow efficiency by maintaining accurate documentation and records.

LEADERSHIP & INVOLVEMENTS

Sponsorship Committee Member | Rose Hack 2025 - 2026

July 2025 - Present

- Contribute to the organization of UCR's annual women-centric hackathon with hundreds of participants across diverse backgrounds.
- Lead outreach to potential sponsors and assist in building a sponsorship pipeline to support event funding.
- Collaborate with a cross-functional team to prepare swag, mentoring opportunities, and workshops for participants.

Notebook Lead & Secretary | VEXU @ UCR, Ursa Mechanica

June 2025 - Present

- Serve as Notebook Lead, documenting the engineering design process and ensuring compliance with VEXU competition requirements.
- Act as Secretary by maintaining records, coordinating the team, and supporting leadership in organizational tasks.
- Collaborate with a diverse team of programmers, mechanical engineers, and designers to build competition-ready robots.
